

Oakwood East Community
Fires – April 9, 2009

The Oakwood East Board of Directors, residents and many, many callers extend their heartfelt sympathies to our neighbors that suffered losses, major and minor, during the recent fires and high winds.

We're very appreciative of the exemplary performance and support of our Midwest City services; fire, police and neighborhood initiative departments. As a result of their diligent efforts, countless hours worked, and devoted service no life was lost. Evacuating and rescuing residents and pets kept our safety ahead of the fire and minimized displacement. Property damage although devastating, could have been much worse due to the high winds.

The various testimonies about our dedicated and hard working city services personnel, volunteers and our own residents pitching in to help - showcase Midwest City as the best city to live in the USA.

The OEHA Board of Directors will make brief presentations of appreciation at the next Midwest City Council Meeting on Tuesday, April 28, 2009 at 7:00PM. Residents are welcomed.
